

Terms and Conditions

The Kids Go Free member benefit (the Benefit) allows the Primary Member to share most of their AMA membership benefits with their children who are 15 years old and younger and who reside in the same household with the Primary Member. The Benefit is only available to AMA members with any sort of CAA Plus or Premier Membership.

The Primary AMA member must register each child's name and birthdate to their AMA Membership in order for the Child to receive an AMA membership card and the Benefit.

Please be aware that the Children who receive the Benefit are not eligible for all AMA membership benefits and services such as Trip Collision Reimbursement, Trip Interruption Protection, 2-day Car Rental, Personal Accident Insurance, Hertz Gold Club Rewards Membership, Worldwide Travel and Medical Assistance and Concierge Services. The Benefit is the sharing of the Primary Member's AMA benefits and the child does not receive any additional benefits. For example, the Primary Member shares their allotted five roadside assistance calls per year with the child, the number of roadside assistance calls per year is not increased.

Roadside Assistance under the Benefit is only available within the province of Alberta. All costs incurred during a roadside assistance call outside the benefits of AMA membership must be paid by the vehicle owner at the time of roadside assistance. Please see the AMA Membership Handbook for details as to what may be an additional cost. The regular terms, conditions and limitations of AMA Roadside Assistance stated in the AMA Membership Handbook still apply.

AMA owned & operated fleet vehicles and contractors are not equipped with car seats to provide transportation for infants. If transportation is required for younger persons, AMA will assist in providing alternate transportation methods (i.e. taxis).

Once a child under the Benefit turns 16 years of age and upon the Primary Member's renewal date, the Benefit will automatically be cancelled for the child and the child will become a paying associate AMA member. The Primary Member should be aware that the additional associate membership will be added to their next membership renewal statement.
